

2021 Becker County Certified Weed Free Gravel Pits

The goal of the Gravel Pit Certification Program is to buy and move gravel with a reduced seed bank, reduce maintenance, cost and spread of both invasive and noxious weeds.

Becker County will purchase gravel/borrow material from Certified Pits only, including new pits that become participants in this program.

Participation in the certification program is voluntary for new and existing pits. Requires a signed agreement. Inspections will be done at least **twice** each growing season for all participating pits to qualify and remain on list.

Certification is May 21, 2021 through May 20, 2022

Annual Inspection begins the last week in April through May 20 of year and semi-annual in July. Additional inspections as deemed necessary.

Expiration
