BECKER COUNTY HIGHWAY 34

According to the Becker County Highway Department, construction improvements are scheduled to begin on County Highway 34 the week of August 12, 2024. The project limits are from County Highway 21 in Richwood to 300th Street. The project will consist of complete reconstruction with wider shoulders and flatter slopes, culvert replacements and the first lift of bituminous surfacing. The project is expected to be completed this fall. The final lift of bituminous pavement will be completed with a separate project in 2025.

The roadway will be closed to through traffic during construction. The detour route for this project will be County Highway 34 and County Highway 21 through White Earth. Local traffic within the project limits should check for updates on our website shown below or contact our office for best routes.

Construction updates and information for local traffic may be found on the Becker County website at <http://www.co.becker.mn.us/dept/highway/projects.aspx> then clicking on the Project Status button. The schedule will be updated weekly as we get closer to a start date.
